

Stage 4, part 3: Paraphrasing

Jonas Nikula

02/02/2017

Extract 1

Most people who read papers only make one pass over most of them. That's why choosing interesting and clear titles and writing inviting abstracts is important. As these are usually the things read on a first pass, if they are not up to par the reader will probably not continue reading it.

Extract 2

Using someone else's work or ideas without acknowledgement or consent is plagiarism. All material in any form, whether published or not, is covered by this definition. Although not always intentional, plagiarism is a serious offence.
